Motion Technologies

BLUMOTION

The integrated dampening system closes softly and effortlessly.

SERVO-DRIVE

With the electrical motion support, handle-less furniture can be opened with a gentle touch. SERVO-DRIVE is combined with BLUMOTION for silent and effortless closing action.

TIP-ON BLUMOTION

The integrated mechanical opening support system TIP-ON BLUMOTION can be used to open and close handle-less furniture with just a simple press.

Unique design features

LEGRABOX free allows large-surface design elements to be integrated harmoniously and effectively into furniture. Whether it is glass, wood, leather or stone — large design elements create appealing accents. Every piece of furniture can be transformed into something special with different design features and the element of your imagination.

Universal for all living areas

A harmonious overall appearance is created, resulting in something not only beautiful, but practical too.
