

SPACE CORNER

the premium corner cabinet solution

PRODUCT
MEMO

blum

SPACE CORNER is a system specially designed to maximise the space often lost in the corner area of the kitchen. Clever design means that every inch of storage space is utilised and because the design of the drawer allows full extension, items stored at the back become easily retrievable. When fully extended, SPACE CORNER drawers bring the cabinet contents to you. The base unit drawers have greater height spaces, allowing you to store more items.

CCI.S5

The fascination lies within
SPACE CORNER incorporates BLUMOTION movement system, giving you a silent and effortless closing operation.

The availability of ORGA-LINE internal dividers further increases usability, making optimum use of every inch of storage space.

- Ideal corner cabinet solution with excellent ergonomics and comfort
- Can be used with standard fronts
- No special front assembly required
- Inspiring opening and closing function

i

No more wasted space

The SPACE CORNER makes innovative use of corner spaces, creating a drawer that is perfect for your Preparation or Non-consumables zone.

CCI.S1

SPACE CORNER in the Preparation zone enables you to store kitchen utensils, knives kept in the ORGA-LINE knife holder, etc. with everything organised and within easy reach. All available space is optimised.

SPACE CORNER provides access to all storage items into the farthest corner of the kitchen.

ZFL.60BUS4

With your SPACE CORNER in the Non-consumables zone, you can store up empty plastic containers as well as small electrical appliances such as toaster, hand mixer, etc.

If ORGA-LINE cross divider set is used, you are guaranteed to achieve a well-arranged drawer as your small electrical appliances can be kept separate from your plastic containers.
